The following is an examiner's statement of reasons for allowance:

The instant invention has been deemed to be an unobvious improvement over U.S. Patents 3,952,918 to Poitras et al, and 3,389,715 to Hebard et al. Poitras et al and Hebard et al disclose hydraulic fluid containers having at least one connecting sleeve with a valve member having a first closed position and a second open position. The unobvious improvement comprising the valve member having at least one radially elastic detent member on a circumferential surface that engages at least one recess in the inner side wall of the connecting sleeve during introduction of the valve member into the connecting sleeve.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
